#### 1. Dr. Dolores Cahill, Ph.D. (world renowned British immunologist): “Likelihood of harm to humans is very significant.”

Video interview with Asia Pacific, May 21, 2021. <https://rumble.com/vhfbv-professor-dolores-cahill-says-that-mrna-vaccines-enhances-the-illness-and-t.html>

#### Bio:

- World renowned expert in immunology and the study of immune systems.
- Selected as an expert in European Union for over the past 15 years.
- 33 peer reviewed [i.e. overseen by experts] publications and holder of several international patents.
- Professor, School of Medicine (Dublin).
- President World Freedom Alliance (110 countries engaged).
- President of the World Doctors Alliance (150,000 medical professionals).
- For her complete bio see: <https://dolorescahill.com/pages/about>

#### Key Points:

- 1:32 Cahill: **Likelihood of harm to humans is very significant.** Animal studies of mRNA have been disastrous; they report a "50 to 100%" death rate.
- 3:08 Cahill: "Until 2020, zero, mRNA injections were approved in the whole world... anywhere. Even though they [i.e. big pharma] have been trying to make mRNA injections for 50 years."
- 3:21 Cahill: "The reason why none of them were approved is that, when they went into the safety studies and animal studies, they cause such severe illness, harm and death they were never regulated or approved."
- 6:12 Cahill: Why none of these mRNA vaccines were approved is because they prime the immune system ... they turn your own immune system against your own body, quite rapidly. And in the animal studies, made them severely sick or killed them... There are a number of names for this vaccine; the names are Antibody Dependent Enhancement (actually, the mRNA enhances the illness or disease), cytokine storm, immune priming, immune super-priming.... it is that the mRNA ramps up the immune system against a viral protein.
- 7:09 Cahill: It turns the people who are injected into a genetically modified organism. You are making a viral [spike] protein... This can integrate into your cells and organs. So, your own immune system starts attacking... Depending how you respond ... Your body will start making your immune response T and B cells that will start to try and get rid of the viral [spike] protein. If these spike proteins are in your heart, spleen, pancreas and lungs, your immune system will attack your own cells.
- 8:47 Cahill: In one care home alone, in Ireland in January 2020, of 51 injected 26 died within 5 weeks. Eight people died in one care home in Berlin from one injection and 19 out of 31 died in the same care home from the second injection.
- 9:53 Cahill: **There should be absolutely no injection of any children and certainly not pregnant women.**

To see media censorship and smearing of Cahill, merely google search her name. Try to find anything good on a google search.

## 2. Dr. Byram Bridle, Ph.D. (Canadian immunologist): The vaccine causes cardiovascular and neurological damage.

Video Interview: [https://brandnewtube.com/watch/dr-byram-w-bridle-CoVID-19-vaccine-039-s-nano-particles-accumulating-in-body\\_uyn9BYgYzXLjZt.html](https://brandnewtube.com/watch/dr-byram-w-bridle-CoVID-19-vaccine-039-s-nano-particles-accumulating-in-body_uyn9BYgYzXLjZt.html)

### Bio:

- Viral immunologist (studies the human immune system)
- Associate Professor Immunology, University of Guelph (Canada)
- Developer of immunization strategies to prevent infectious diseases and treat cancers.
- Currently, developing a COVID vaccine.
- Dr. Bridle is exclusively funded by federal funding agencies.
- Before COVID, he was a pro-vaccine advocate

### Key Points:

0:46 Bridle: I was asked on a radio interview:

"[If] I knew whether or not there could be a possible link between CoVID-19 and cases of heart inflammation ... In this case, 12 young males in Israel."

1:15 [The video then switches to the actual footage of Bridle being asked the above question.]

1:46 Bridle:

"We follow the science carefully... Everything that I am about to state is completely backed up by peer-reviewed, scientific publications. My conclusions:"

- CoVID is harmful because of spike proteins on its surface; it is what infects our bodies.
- The vaccines work by getting the cells in our bodies to manufacture spike proteins
- The theory is, our bodies will develop an immune response to the spike proteins.
- Spike proteins from vaccination circulate in our bodies and accumulate in our vital organs [liver, adrenal, heart, brain, reproductive, etc.].
- 2:46 "The spike protein [from vaccination] is a pathogenic protein [causing disease], it is a toxin, it can cause damage in our bodies if gets into circulation, now we have clear cut evidence [of this]."
- 3:01 "The spike proteins combine to the receptors on our platelets and the cells that line our blood vessels. When that happens it can do one of two things, it can causes platelets to clump and that can lead to clotting (that's exactly why is why we have seen clotting disorders ...), it can also lead to bleeding."
- 3:22 "And of course the heart is involved, it is part of the cardiovascular system, that is why we are seeing heart problems."
- 3:26 "The protein can also cross the blood-brain barrier and cause neurological damage. That is why also in the fatal cases of blood clots many times it has been in the brain."

7:18 Bridle:

"What we also know is that proper studies have not been conducted. Remarkably, this [the vaccine's safety] is based on a rat study ... It should have been done on at least two animal models and remarkably, it has not been done on people."

7:56 Bridle:

"And also, what people don't realize, there was no evidence of issues with fertility. These rodents are completely inappropriate models for CoVID 19. They don't express the receptors as we do. So, of course you're going to see safety in a model like that. It is an inappropriate animal model."

8:06 Bridle:

"Mass vaccination of healthy Canadian children demands that the level of safety is associated with this. The assessed safety profile needs to be exceptionally high. We have had 13 Canadian children under the age of 20 die in 16 months with well over two and a half thousand dying from other causes."

3:49 Attacks from the Media and Government. Bridle:

"After I did this interview, it was like a nuclear bomb went off in my world... Within 24 hours there was a libelous website that was put up, using my domain name. A fake Twitter account was developed to slander me and I have been undergoing daily attacks... either through emails or people attempting to call me. Definitely through social media, and I have never had a presence in the social media until recently, where I now have a fake social media presence. I am experiencing a lot of harassment in the workplace. It has even gone so far as having one of the members of the Ontario CoVID 19 Science Advisory Committee. They were actually the first ones to post a link to this slanderous website. They have fanned the flames of this smear campaign quite strongly. They even went so far as to release confidential medical information about my parents."

### 3. Dr. Richard Fleming, M.D., Ph.D. Physics, Ph.D. Law (World renowned cardiologist): Vaccine to cause neurological disease. Vaccine is unnecessary as CoVID-19 can be effectively treated.

Interview with Brighteon.com - June 2021: <https://www.brighteon.com/cd9accb3-3ece-4763-9c45-ad55025a6fe2>

#### Bio:

- He is an American Nuclear Cardiologist
- MD, Ph.D. (Physics), Ph.D. (Law).
- In 1994 he developed the theory on inflation causing heart disease. It is now accepted as fact.
- He has published 184 articles (mostly in medical journals).
- He has published 26 medical books.
- He is a past/present editor or peer review board member of 31 medical journals.
- A "Top 100 Most Inspiring Leaders" (2013). Number 2 in the "Superhero" category.

#### Key Points:

- 3:10 His early work on CoVID focused on the origins of the virus. His belief was that it was man-made [escaped from 25 The SARS-CoV-2 virus is a manmade virus.
- 11:33 The US Dept of Defence gave Peter Daszak \$39 million.
- 22:24 Fleming says we know the Sars-CoV-2 virus was man made because:  
We have the genetic code of the virus, and its components do not exist in nature.  
We have correspondence between them. This genetic code indicates that, because it uses this to replicate it in how this was developed.  
Both the virus and the vaccine infect our bodies with a spike protein.  
The spike protein is the problem. It causes:
  1. Inflammation and blood-clotting in vital organs;
  2. It places a prion component (which is part of the spike protein), in the brain.  
**These prions (produced by the vaccine), are associated with neurological disease.**
- 30:26 Dr. Kevin McCairn is a foremost expert on prions and neurological disease. He has been warning the world about this aspect of the vaccine for the past year.
- 37:20 The vaccine provides no benefit over not being vaccinated. Statistically, vaccination provides no better protection from death than no vaccine.

**Dr. Fleming has successfully treated CoVID patients with a 99%+ cure rate.**

### 4. Dr. Ryan Cole, M.D. (American pathologist): "I am observing a 20 times increase in endometrial cancer" with vaccinated patients.

Health Freedom Idaho - 2021-08-25: <https://twitter.com/ToTheLifeboats/status/1430589141344034816>

#### Bio

- Board-certified pathologist [board-certified is a mark of distinction, pathologists diagnose the effects of diseases]
- Trained at the Mayo Clinic

- **Treated 400 CoVID patients. None have gone to hospital, and none have died**
- **Treated 500,000 patients diagnostically.**
- Member of the Idaho Regional Health Board.

#### Key Points:

- 0:06 Cole: **Post vaccine [i.e. in the vaccinated] we are seeing** a reduction of the very important killer T-cells. These cells keep all other viruses in check [including cancer.]
- 0:28 Cole: So, what am I seeing in the laboratory? An increase in herpes, shingles, mono.
- 1:17 Cole: **"I am seeing a 20 times increase in in of endometrial [in the uterus] cancer ... no exaggerating at all ... melanomas [skin cancer] ... skyrocketing."**

## 5. Dr. Marty Makary, M.D. (world renowned American oncologist): FDA panel overwhelmingly rejects Pfizer booster shots.

Fox News, Sep 17, 2021: <https://www.youtube.com/watch?v=eAVuBgR6iZw>

### Bio

- Surgical oncologist and Chief of the Johns Hopkins Islet Transplant Center.
- Clinical lead for the Johns Hopkins Sibley Innovation Hub
- Executive Director of Improving Wisely
- Professor of Surgery, John Hopkins University
- Served on the W.H.O. Safe Surgery Saves Lives committee.
- He led the W.H.O. workgroup to create global measures of surgical quality.
- Published over 200 scientific articles
- The author of The New York Times best-selling book "Unaccountable" about patient safety and physician-led transparency efforts in health.

### Key Points:

0:08 The FDA advisory panel votes (Sept 17 '21), not to recommend the Pfizer booster shot.

0:50 FDA panel voted 16-2 against Pfizer booster shots for aged 16+.

0:54 This outcome was based on testimony from experts from a study from Israel.

1:43 Makary: kids are at higher risk from the vaccine with myocarditis and pericarditis.

1:55 Makary: Two doctors on the panel "both really warned" about the complications arising from the second vaccine dose on kids. So, for a third, better data is needed. "I am concerned as well."

3:10 Makary: Study out of Israel showing natural immunity 27 times more effective than vaccinated immunity. The FDA panel relies on the Israeli study because the U.S. CDC has no equivalent study.

## 6. Dr. Harvey Risch M.D., Ph.D. (world renowned Professor of Epidemiology): 60% of new CoVID patients have received vaccines. Effective treatments for CoVID-19 are currently being used.

War Room (Steve Bannon), April 20, 2021: <https://CoVIDcalltohumanity.org/2021/04/23/dr-harvey-risch-60-of-new-CoVID-patients-have-received-vaccines/>

### Bio:

- Professor of Epidemiology [i.e. disease], Yale School of Medicine.
- Associate Editor of the Journal of the National Cancer Institute.
- Editor of the International Journal of Cancer.
- Past Member of the Board of Editors, the American Journal of Epidemiology.
- Author of more than 350 original peer-reviewed research publications in the medical literature, and
- Referenced in over 44,000 scientific publications.

### Key Points:

3:00 Risch: "Clinicians are telling me that more than half of the new CoVID cases that they are seeing to treat, are people who have been vaccinated .... They've estimated that more than 60% of the new cases that they are treating – COVID cases – have been people who have been vaccinated."

20:50 Risch: Early outpatient treatment works. "We have [treatment with] hydroxychloroquine, ivermectin, quercetin .... lots of different outpatient approaches. Most are over-the-counter. There are generic medications, inexpensive medications. We don't need to be generating \$3,000 per pill treatments [no need to develop treatments,] we have them already."

21:40 Risch: "That [natural immunity] will generate the people with immunity. Who survive the pandemic. [They] Are easily treated."

22:30 Risch: "More than 4,000 variants so far.... All are treatable, [from what I hear from my colleagues] in South Africa and Brazil .... They are treating them effectively [with hydroxychloroquine, ivermectin, etc.]. The vaccines will work to a greater or lesser degree."

**7. Dr. Robert Malone, M.D., M.Sci. (inventor of the COVID-19 vaccine technology): The vaccinated are at a greater risk of contracting CoVID-19 than the unvaccinated.**

Video on The Gateway Pundit, July 28, 2021: <https://www.thegatewaypundit.com/2021/07/inventor-mrna-vaccine-CoVID-vaccines-make-virus-dangerous/>

**Bio:**

- Chief architect/inventor of the CoVID-19 vaccine technology.
- 16,000 scientists stand with Dr. Malone.
- He received the CoVID-19 vaccine and now actively speaking against the vaccine.

**Key Points:**

- Malone: People who have taken the Pfizer and Moderna vaccines are at greater risk of getting CoVID than someone who is not vaccinated.
  - Malone: The reason for this is antibody dependent enhancement... this has occurred in all previous vaccine attempts for a mRNA vaccine.
  - Malone: "I am the opposite of an antivaxxer, I am a true believer, but, I am also committed to safety and good science."
- 

**8. Dr. Peter McCullough M.D. (world renowned cardiologist): We know now it is absolutely and positively dangerous."**

**Key Points:**

22:50 With the neurological, heart, blood clotting and deaths associated with the vaccine, it is hard to find any group that would benefit from the vaccine.

27:00 The vaccine has a very dangerous mechanism of action.

36:00 "We know now it is absolutely and positively dangerous."
